PROFILE

Electrical and electronics engineer working across power systems, applied machine learning and project planning. I have built physics-informed and deep-learning models for industrial fault diagnosis and predictive maintenance, planned offshore-wind and pipeline scopes in Primavera P6, and supported IT systems professionally since 2020 — while completing an MSc in Financial Engineering at WorldQuant University. The through-line is engineering under constraint: a model is finished when it survives a schedule, a budget and a real limitation.

PLANNING MODELS · PRIMAVERA P6

Nigeria Offshore Wind Farm — Electrical Balance of Plant — US$450m
339 activities · 423 relationships · 1,386 assignments · 71 risk records
Portfolio planning model for a 300 MW offshore wind electrical balance-of-plant scope: multi-discipline work packages, international calendars and marine campaign sequencing.

Trans-Delta 24-inch Export Pipeline Rehabilitation & Life Extension — US$60.6m
226 activities · 405 relationships · 1,507 assignments · 34 risk records
Schedule model across rehabilitation, inspection, repair, procurement and construction interfaces for a long-life export pipeline scope.

24-inch Crude Oil Pipeline Replacement — 10 km — US$17.35m
157 activities · 272 relationships · 723 assignments · 24 risk records
Planning model for mixed-terrain replacement — laterite, creek/HDD and swamp work areas — working back from a defined completion constraint.

RESEARCH RECORD

Riemannian Transfer Learning for Cross-Subject BCI — 10.5281/zenodo.18714046
Euclidean alignment + SimCLR pre-training — 79.3% accuracy and 0.27 ms inference latency reported

Zero-Shot Industrial Fault Diagnosis via PI-GANs — 10.5281/zenodo.18745734
Physics-informed generative modelling — 98.72% zero-shot accuracy, 77.22% inter-domain accuracy reported

Autonomous Active Vibration Control via Deep Reinforcement Learning — 10.5281/zenodo.18794732
Soft Actor-Critic for dynamic PID tuning — 40% settling-time reduction and 17% efficiency gain vs. Ziegler–Nichols reported

Binary Saturation in Recurrent Spiking Neural Networks — 10.5281/zenodo.18794753
Model-behaviour study under homeostatic regularisation — High-activity regimes can persist despite high classification accuracy

Physics-Informed Domain Adaptation for Industrial Fault Diagnosis — 10.5281/zenodo.18794765
Digital twin + 1D-CNN · CWRU bearing dataset — 100% precision and recall reported in the project record

SELECTED BUILDS

Power-System Predictive Maintenance — 87% reported accuracy
Artificial neural network trained on power-system fault signatures to explore generator-failure prediction and proactive maintenance scheduling.

Automatic Power Stabilizer — 220 V prototype
Hardware build with active detection and correction logic, designed to hold stable output across the tested anomaly range.

Autonomous Energy Grid Agent — 5.5% simulated cost savings
PPO agent optimising battery discharge in a renewable microgrid simulator, compared against standard simulated controllers.

Explainable Breast Cancer Classifier 98.2% reported accuracy
SVM with SHAP explanations on a 30-feature dataset. An educational ML prototype, not a diagnostic device.

Lagos Route Optimisation Engine 25% lower simulated distance
Vehicle-routing model for four trucks and sixteen delivery stops, compared with sequential routing and visualised in Folium.

Olfactory Perception Signal Modelling 90% reported accuracy
MATLAB CNN classifying volatile organic compounds from rat EEG readings, as a final-year engineering project.

EXPERIENCE

IT Support Technician Sep 2020 — present
Arkvolt · Lagos · Part-time · Hybrid

Built a personal computer and upgraded an existing one for optimal performance — hands-on work with hardware components and system configuration, carried into ongoing technical support.

Engineer Intern Jun 2023 — present
Transmission Company of Nigeria · Lagos · Part-time

Power-system analysis and troubleshooting inside the national transmission operator.

Financial Engineer Jun 2026 — Oct 2026
10th International Conference on ICICPE · Chiang Mai, Thailand · Remote

Published the paper “Explainable Machine Learning for Credit Risk Assessment Under Macroeconomic Stress: A Nigerian Economic Context Framework”.

Field Engineer Jul 2025 — Nov 2025
Axon Integrated Services Limited · Gbagada, Lagos

Supervised the telecommunication network.

High School Science Teacher Aug 2016 — Sep 2024
Continuous Education Centre, Ansar-ud-Deen · Lagos · Part-time

Taught science across the secondary curriculum for eight years, planning lessons, tracking progress and adapting instruction to the learner.

Assisting Presiding Officer Feb 2023 — Mar 2023
INEC Nigeria

Supervised the electoral process for over 500 voters, working to strict guidelines under pressure.

School Teacher Jul 2022 — Oct 2022
Phenomenal Scholars School

Developed and delivered lesson plans in Mathematics and Basic Science for 40+ students, raising participation.

Logistics Specialist Jan 2021 — Dec 2021
CHI Limited · Lagos

Managed high-value inventory and coordinated goods distribution with drivers.

School Teacher Oct 2016 — Jul 2017
Conscience International School · Lagos

Classroom teaching in Mathematics and Basic Science.

EDUCATION

MSc Financial Engineering Jan 2026 — Jan 2028 · in progress
WorldQuant University

BBA Business Administration and Management Sep 2025 — Sep 2029 · in progress
University of the People

B.Eng. Electrical & Electronics Engineering Oct 2021 — May 2025
Federal University of Agriculture, Abeokuta (FUNAAB)

LEADERSHIP & SERVICE

Project Coordinator
FUNAAB Electrical & Electronics Engineering Department — Led three department projects, managed cross-functional teams and delivered on schedule.

Rotaract Club Member
District 9111 · FUNAAB — Community-service and leadership initiatives.

CERTIFICATIONS · 36 RECORDS

PROJECT & LEADERSHIP

Google Project Management Professional Certificate, Google / Coursera · 7 courses (Oct 2026) · Project Planning: Putting It All Together, Google / Coursera (Oct 2026) · Project Initiation: Starting a Successful Project, Google / Coursera (Oct 2026) · Microsoft Project Management: Build Job-Ready Skills, Microsoft / Coursera (Sep 2025) · Project Engineering Management Training Programme for Engineering Graduates, NCDMB with Elevated Express Limited · Lagos (Oct 2026) · Aspire Leaders Program, Aspire Institute · 40 hours (Dec 2025) · Security Risk Management Professional – Country (SRMP-C), INSSA · 3-year validity stated (May 2024) · Certificate in Project Management Professional, Seal-Sea Concept · training certificate, not PMI PMP (Feb 2024) · Leading Organizational Change (BUS643), Course certificate (Jun 2024) · Project Management, DisasterReady / Cornerstone OnDemand · 2.5 hours (May 2024) · Project Management Essentials Certified, Management and Strategy Institute (Jun 2024) · Business Management Essentials Certified, Management and Strategy Institute (Jun 2024)

ENGINEERING & ENERGY

IoT Wireless & Cloud Computing Emerging Technologies, Yonsei University / Coursera (Jun 2025) · Energy Access and Just Transition, Green Hub Africa (Jul 2025) · Complete Course in AutoCAD: 2D and 3D, CADCIM Technologies / Udemy (Jun 2024) · Electronics Mastery: The Beginner's Course in Electronics, Lab Awesome / Udemy (Jun 2024)

DATA & AI

IBM Data Science Professional Certificate, IBM / Coursera · 12 courses (Aug 2025) · Applied Data Science Lab, WorldQuant University (Aug 2025) · Microsoft Python Development, Microsoft / Coursera (Sep 2025) · Data Science Essentials with Python, Cisco (Sep 2025) · 5-Day AI Agents Intensive Course with Google, Kaggle (Dec 2025) · Ethics of AI, University of Helsinki · 2 ECTS (Jul 2025) · Data Literacy — What Is It and Why Does It Matter?, 4EU+ Alliance / Coursera (Jul 2025) · Excel Fundamentals for Data Analysis, Macquarie University / Coursera (Jul 2025) · What Is Data Science?, IBM / Coursera (Jul 2025) · What Is Generative AI?, LinkedIn Learning (Jun 2025) · Basic Information Literacy, University at Buffalo / Coursera (Jun 2025)

IT & SOFTWARE

IBM IT Support Professional Certificate, IBM / Coursera · 9 courses (Aug 2025) · Microsoft IT Support Specialist Professional Certificate, Microsoft / Coursera · 6 courses (Aug 2025) · Dell Technologies Technical Customer Support Specialist, Dell Technologies / Coursera · 5 courses (Aug 2025) · Microsoft 365 Ultimate Guide, Udemy · 22.5 hours (Jun 2024)

EDUCATION & COMMUNICATION

Teaching English as a Foreign Language (TEFL), Teacher Record · 120 hours · Distinction (Jun 2024) · Jobberman Soft-Skills Training, Jobberman / Propel (Jun 2025) · Mentorship Principles, North American Division Leadership Certification (Jun 2024) · EF SET English Certificate 56/100 (B2 Upper Intermediate), EF SET (Jun 2026) · The Fundamentals of Digital Marketing, Google Digital Skills for Africa (May 2022)

Project figures are simulation, prototype or dataset-level results as reported in the project materials — not field performance. The Primavera P6 models are planning exercises, not executed projects or approved contract values. Research records are not peer-reviewed publications.

Full record, 17 public verification links, and a case study for every project: faruk-portfolio-eight.vercel.app

Build with technical depth. Explain with clarity. Keep the human context in view.
